

# CAIRN MISSION GROUP

Technology sourcing. Procurement coordination. Organized execution.

Cairn Mission Group LLC coordinates commercial products, suppliers, and scoped professional support around government and prime-contractor requirements. An owner-led model keeps responsibilities, commitments, and customer communication clear.

## CORE CAPABILITIES

### Technology & product sourcing

Commercial equipment, technology products, and supplies; supplier identification, quote coordination, order fulfillment, and delivery tracking.

### Procurement & supplier coordination

Requirement review, pricing comparison, supplier communication, lead-time confirmation, and documented order and delivery commitments.

### Scoped operational support

Founder experience supports narrowly scoped enterprise service-desk, training, documentation, operational reporting, and quality-control work. Other specialties require qualified partners.

## DELIVERY APPROACH

Understand the requirement. Confirm suitable suppliers or specialists. Verify qualifications, capacity, timing, responsibilities, and financing before committing to delivery.

## FOUNDER EXPERIENCE

Matt Pettijohn, retired U.S. Army Sergeant First Class: 20 years of Army service, operational leadership, training readiness, reporting quality control, and subsequent Army enterprise IT support.

Founder accomplishments include leadership of 25+ personnel, training readiness for 60+, and accountability for a \$10 million equipment platform. This is individual experience gained before Cairn's formation, separate from corporate past performance.
